

Thank you. Your order is moving forward.

Read this short guide before planning anyone on-site.

1. PAYMENT RECEIVED

We have received your payment and your order is in motion. This note is only about what happens next. Your sales representative remains your first point of contact.

2. QUALITY CHECK AND RELEASE

The depot inspects the unit and releases it for dispatch. Release timing depends on the depot, not on a promise in this email. We do not invent a pickup or delivery date here.

3. DRIVER SCHEDULING

After release, we schedule the driver. You will hear from us when that window is real. Do not hire labor, block a street, or take time off work based on an estimate.

4. DELIVERY WINDOW

We confirm the delivery window with you before anyone should be waiting on-site. If the site is not ready, the trip can be rescheduled and extra trip charges can apply. Clear access, a firm pad or ground the truck can use, and a path without low wires or tight turns are your responsibility unless we agreed otherwise in writing.

5. WHO TO CALL

Your sales representative is still the first point of contact. Reply to the email that included this guide, or call the office if you cannot reach them.

Office: (870) 323-2593 | cbshippingsolutions.app

6. WHAT THIS GUIDE IS NOT

This is not an invoice, a quote, a delivery appointment, or a change to the deal you already accepted. It does not collect payment information. Keep your invoice for banking details.

Before anyone waits on-site

Wait for a confirmed window from CB Shipping Solutions.

Have the site clear and reachable for the truck.

Ask your representative if anything about access or timing is unclear.

Thank you for your business.
